

March 9, 2024

To my Member of Parliament:

It was a troubling experience for me to research and find out about this World Health Organization (WHO) Global Pandemic Treaty with the government of Canada.

Something that deeply affects our rights is being take away from our elected officials and given to a questionable international body like the WHO. I strongly feel your constituency voted for you to retain Canadian control over an issue such as this.

The Government of Canada is merely months away from ratifying this pandemic treaty. Yet, concerned Canadians such as I have to research this issue on our own. Sadly, high profile Canadians and international experts are speaking out against this treaty. They are providing excellent reasons why this treaty should not proceed.

Please reply to my email below and let me know what you will do about this matter that is of a high urgency.

Sincerely,

Signature
