Managing Director and Designer Oliver Jörger

# A Tradition of Innovation Since 1909

The Jörger family has designed and crafted bathroom taps and accessories of supreme sophistication and beauty for over four generations. Since Bernhard Jörger was entrusted by Friedrich II of Baden to furnish the bathrooms of his Mannheim palace in 1909, through the engineering and

design advancements of his grandson Gerhard Jörger in the 1960s and 1970s, to Oliver Jörger's continuing creative inspiration today, the Jörger family crest has signified the ultimate blending of materials, engineering and hand finishing.

# The Highest Expression of Form for the Most Exceptional Spaces

Continuing in the tradition of world renowned German engineering and hand crafting, highly trained and dedicated artisans use only the finest materials to produce Jörger taps and accessories.

Specially formulated brass cast and honed for spouts, valves and handles. Precious metals create exquisite finishes and

tones. And natural stones, crystal and porcelain add one of a kind decorative accents.

Human ingenuity is brought together with the most sophisticated technology inside the Jörger family's own workshops in Mannheim, Germany.

Along with this commitment to the best craft and material, Jörger is also distinctive for developing its own designs in house under the creative control of managing director Oliver Jörger.

Since earning his degree in industrial design, Oliver has defined the company's unique blend of modern attitude with traditional ideals for over 20 years. Drawing inspiration from

nature, extraordinary architecture, and classical geometric shapes, Oliver has designed internationally successful collections including EXAL, VALENCIA, TURN, EMPIRE ROYAL and CRONOS.

And because both design and production are in house, Oliver's existing collections can also be customized to meet a project requirement or customer request.

„Designing for Jörger is a task that gives me great joy and satisfaction.“

# VALENCIA – An Ideal Blending of Noble Elements

The innovative and sophisticated interior design of modern luxury automobiles inspired Oliver Jörger to create the Valencia collection of faucets, shower trim and accessories. Black crystal accents and textured handles deliver a luxurious touch and a glamorous modern character to this timeless design.

Valencia many handle and finish combinations, like Rose Gold with White Crystal, add a classic charm to any bathroom.

The new VALENCIA jewellery design, featuring the magical beauty and uniqueness of natural gemstones combined with exclusive, luxurious surface finishes by Jörgen. Scintillating stones of magical beauty adorn the handles of the VALENCIA bathroom taps. Available are labradorite, malachite, black marble, amethyst, white turquoise and blue aventurine.

# BELLEDOR

## Exquisite porcelain in full bloom

# FÜRSTENBERG

1747

Classically elegant, the timeless beauty of porcelain inspired Oliver Jörger to create the BELLEDOR collection.

Famed German porcelain maker FÜRSTENBERG who for over 275 years has produced noble manufactory porcelain in Lower Saxony has created naturally inspired handles. Delicate and

graceful, though possessing the materials' resilient qualities, their ornamental floral detail is perfectly offset by BELLEDOR's soft modern design.

A complete range of coordinated accessories perfectly complete this classic series.

We add a surcharge depending on the individual product from case to case for the special versions with platinum or gold painting and the finishes with mother-of-pearl effect. The surcharge is indicated underneath the article.

The porcelain handles are made exclusively for the Belledor collection by Fürstenberg. Genuine gold and platinum are used for the hand-painting finish.

The mother-of-pearl look articles have no gold content.

# CRONOS

## Design made for eternity

Sometimes it's the little things in everyday life that bring forth something special. It was the Grandfather's watch, or more precisely, the crown of this historic pocket watch, that inspired Oliver Jörger to create the modern design of CRONOS.

Clarity and classical elegance characterise this stylish collection. Like fluting on ancient pillars, fine lines grace the surface of the fixture. The soft shape of the body offsets the strict linear feel.

# EMPIRE ROYAL CRYSTAL

## Royal accents with Crystals

The pyramid shape was the inspiration for the design of the EMPIRE ROYAL CRYSTAL collection by Oliver Jörger. The handles made of high-quality, polished crystals and the beautifully curved spout of the fitting are of great aesthetic impact and give the modern, straight-lined series its unique grace.

# TURN

## Dynamic design – unique like true art

The artistically wound form gives the TURN fitting its unique dynamism and sculptural character.

It was a skyscraper, the spectacular Cayan Tower in Dubai that inspired Oliver Jörger to create the award-winning design: the square body turns impressively 90 degrees around its own axis.

# FLORALE CRYSTAL

## Coloured Crystals in glittering bloom

A magic effect is created when glittering crystals meet light and water. The luxurious design of the FLORALE CRYSTAL collection combines timeless crystals and floral forms to one single work of art.

Sophistically polished, faceted crystals in various colours adorn the handles of the harmoniously shaped fittings. A wide range of accessories pick up on the design throughout the whole collection.

# EXAL

## Clear form in flowing design

Flowing lightness characterises the EXAL bathroom collection. The elegance of the crane in flight inspired Oliver Jörger to create the modern design: the clear, simple shape with the curved spout gives the bathroom fitting its dynamic style.

A variety of handcrafted, exclusive surfaces in glossy or matt finishes form the basis for special design styles. They give the bathroom individual character and a uniquely atmospheric ambience – from simple to luxurious.

Single lever washbasin mixer in sunshine

# CHARLESTON ROYAL

## Modern design classic in the bathroom

With its simple, clear design CHARLESTON ROYAL brings an ideal harmony into the bathroom. Oliver Jörger's source of inspiration for the design has been the legendary Bauhaus style in its restrained, elegant and functional aesthetics. Based on the basic shape of the circle, the elegant, linear collection is one of the timelessly modern mixer classics.

# Palazzo Crystal Glittering Diamond

The diamond, as the most glittering of precious stones, supplied Oliver Jörger with the inspiration for „Palazzo Crystal“ range of taps and accessories, turning every bathroom into a jewel.

A bright glow fills the bathroom: Crystals take you back to the magnificent times of luxury in palaces. The beauty, clarity and exclusivity of the diamond was Oliver Jörger's source of inspiration during the development of the classical „Palazzo Crystal“ range of taps and accessories.

Crystals with a sophisticated diamond polish refine the round handles and elements of all the fixtures in every detail of the wide range of accessories. On washbasins, bidets, and bathtubs as well as in showers, the crystals merge with water and light and unfold their magic, with fascinating effect.

Soft lines give the form warmth and harmony: The fixture spout is softly curved and the round rosettes finish off perfectly the form of the crystals. Exquisite, hand-finished surfaces complete this luxurious bathroom design.
