

Apply for funding for

Whole Orchard Recycling

Benefits include...

- Increased yields
- Carbon storage
- Irrigation Efficiency
- Improved soil health
- Enhanced water holding capacity
- And much more!

Orchard - \$600 per acre

Cane-pruned vineyard - \$800 per acre

Cordon-pruned vineyard - \$1300 per acre

Contact a member of the CalGAP team today for more information!

WOR Steps:

1. Excavating
2. Grinding (two-four inch chip size)
3. Spreading
4. Ripping (deep rip, 5-6 feet)
5. Incorporating (stubble discs, plowing, or roto-tilling)
6. Fumigating (fumigant injected between 18-24 inches)
7. Replanting

Eligibility:

- Eligible crop types include orchard and vineyard removals as defined in Section 3.25 and 3.38 of District Rule 4103 (Open Burning)
- Only commercial agricultural operations are eligible to apply
- The agricultural material must be for soil incorporation or land application on grower property or District approved off-site beneficial re-use
- Grower must certify the continued agricultural use of property from which the orchards was removed
