2022 brought a new awareness to to the phrase
"shop locally".

Not only did buying locally help a business do what
it could to get through the pandemic; buying local
does so much more.

By purchasing directly from members of your
community, you are supporting entrepreneurs, like
farmers and small businesses. It means you are
investing directly in your community's economy.
Supporting that local business will enable them to
provide employment to area residents and seek
out other local goods and services they require.

**Open from
May 7 - Oct. 29, 2023**

Come celebrate the best locally grown at our award-winning market! Our lively family-friendly market offers Uxbridge's finest farmers, prepared food vendors, artisans and musicians.

intolerance.**

**7015 Sideroad 18
Floradale ON
markmartin@mwpol.ca**

519-588-3644

Did you know..Sheep milk contains double the amount of butterfat in comparison to goat's and cow's milk. The fat globules in sheep milk are smaller than those in either cow or goat milk. Therefore the milk is more homogeneous. The smaller fat globules are more easily digested and are less likely to cause high cholesterol..

ORCHARD HOME FARM

**Start a new family tradition at
Orchard Home Farm.
Pick your own apples and pears
