WARNING: Myers-Stevens tackle football insurance does not cover other sports. If your student intends to participate in additional sports and you do not have insurance, Myers-Stevens offers the School Time Accident or Full-Time (24-hour) accident plan.

Under state law, school districts are required to ensure that all members of the school athletic teams have accidental injury insurance that covers medical and hospital expenses. The insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses (Education Code Section 32221.5). Some pupils may qualify to enroll in no-cost or low-cost local, state, or federally sponsored health insurance programs. Recommendations _____

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).
