*MULTI-PURPOSE VEHICLE

The exciting new funhouse on wheels . . . a 3-pointed pony that's more of a thrill than your own first trike! Makes a mattress out of the crankiest country . . . charges over dunes, dirt, ditches and marshes like it just can't wait . . . even on snow, with optional front ski attachment (see back page). And it lives up to the name . . . "MPV" means it's **MULTI-PURPOSE**. Mow, roll or aerate the lawn (see **OPTIONALS** for a dandy 3-gang mower!), hook up a utility cart to haul trimmings or trash. Whatever you use it for . . .

IT'S A WORKHORSE FUNMOBILE!

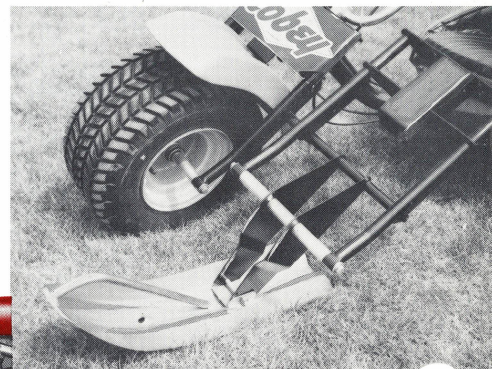

Cobey's mpv*...it's a 5-horse phenomenon that puts fun in work & takes the work out of your fun!

This 140-pound package of excitement purrs like a kitten at low throttle, walks primly thru its paces as you mow or make light of other yard, farm or ranch chores. Now give it the gun . . . watch it eat up a 45-degree hill, leap cross country or haul you (and gear) on a hunting or fishing junket. The most versatile off-road vehicle foaled yet . . . outperforms units costing twice as much!

Check this power plant, a Tecumseh 4-cycle 5-horse frisky that'll purr or roar to your mood. Top speed is a sparky 25 mph, and that tank holds 2 gallons . . . enough for a long romp! The body's molded fiberglass, frame's 2-inch tubular steel.

Optional SPRING-LOADED SKI ATTACHMENT

Replaces front wheel and fork, quickly and easily, makes your MPV truly an all-season vehicle. Great for fun or work in the snow.
