- RUGGED MOUNTING BRACKET
- ASYMMETRIC STEEL DRIVER & DRIVEN UNITS
- MAX-TORQUE 'A'-BELT
- DURABLE ABS COVER
- SPECIAL JACK SHAFT
- FINAL DRIVE SPROCKET
- MOUNTING BOLTS & SPACER

A heavy duty stamped steel system designed to transform your Tecumseh or other direct drive mini-bike into a road & track TIGER! It responds automatically to varied terrain. Quickly. Smoothly. Positively.

The Max-Torque MTC-9A gives you the low end pull for the steepest hills as well as the top end you need for level ground performance. Performance you never dreamed you could get from your present bike.

Just bolt it on and blow off every bike on the block!!!

The MTC-9A is designed to bolt directly to most 4-cycle mini-bike installations, including 20" engine off-sets.

Now! A Variable Speed Automatic Transmission at a price every mini-biker can afford!
