TE-380—Kohler 8 HP Electric Start  
TR-380—Kohler 8 HP Recoil Start  
Displacement—245 cc

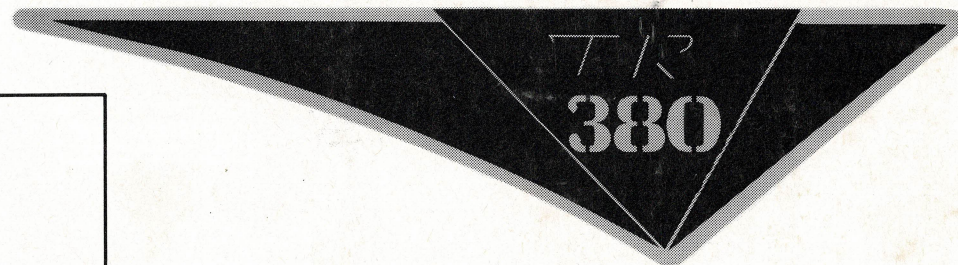

## TRANSMISSION

Clutch—Torque Converter  
Drive Train—Transaxle

Commuter's new T-380 series of bikes are designed to withstand hundreds of hours of trouble free use.

The transaxle drive, which is an enclosed gear reduction case, eliminates all daily maintenance normally needed with chain drives.

Commuter's three-wheel bike is a modern day horse providing dependable transportation for all types of farm and ranch work. Commuters are used for maintaining irrigation systems, mending fences, herding livestock, hunting and fishing or riding for fun.

## TR-380

The TR-380 Commuter features a new Kohler 8 HP engine with CD ignition and compression release recoil starting. This cast iron engine coupled with the all steel torque converter and transaxle drive make the TR-380 the most dependable 3-wheeler made.
