from EXPLORER that takes  
you anywhere you want to go

On the Sand  
In the Trails  
Over the Rocks  
Through the Snow

Accessories are available at  
your local dealer.

**EXPLORER**

The **EXPLORER** is an all-Terrain vehicle designed for easy handling and safe fun for the whole family. Ride comfortably in the deep, foam-cushioned bucket seat on huge super soft tires over dirt, rocks, sand, and snow.

The variable speed transmission gives low end Torque for taking hills and plenty of flat-out power. Simple, direct steering and hand throttle allow everyone to get expert thrilling performance the first time out.

The **EXPLORER** is extremely stable due to its wide, low stance. Also adding safety and action are right and left independent rear brakes giving maximum control in cornering and braking. The overall design concept makes for ease of maintenance and minimum repairs.
