

Florida Association of Fire Rescue Cadets

Communications Drill

2024 Summer Gator Fire Games

Objective:

This event allows the teams of four to demonstrate effective communication during a stressful situation. All four cadets will start at a table facing the wall with 15 puzzle pieces in front of them face down. On the “Go” command they can flip the cards over and will have to communicate to figure out which apparatus from the list they can build. To be able to complete the puzzle each cadet will need to have 2 puzzle pieces from the matching apparatus. No cadet will have more than 2 puzzle pieces from each apparatus. Each apparatus picture will be cut into 8 equal pieces.

Each cadet can only bring two puzzle pieces to the middle judging table, once all team members are at the judging table and the puzzle is complete they will sit down in chairs at the table and time will stop. If incorrect pieces are brought to the middle judging table the incorrect pieces must be taken back and swapped out by the cadet, penalty to be assessed.
