

German Shepherd Puppies

Our AKC German Shepherd Puppies are unique!

As members of our family, we interact daily to develop keen socialization skills, cultivate drive & train in obedience, leash abilities & crate competencies.

We are so proud that our beautiful dogs are having another litter. We are NOT in business to breed, we just know that our 2 Shepherds are amazing & want to share with others the awesome experience we have with our dogs!

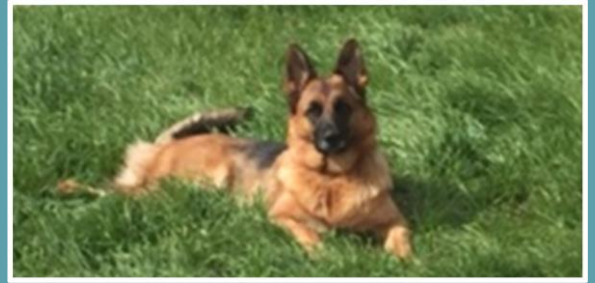

We are John & Brooke Rudis. My wife is with Chesapeake Public Schools &, after 32 years, I retired from the Chesapeake Fire Department. We live in Chesapeake on 21 acres with chickens, turkeys & horses; an ideal setting for our German Shepherds to train, herd & develop their internal drive. Jager and Elsa are an integral part of our family!

Jager, the sire, has been with us for 8 years now. He is a laid back, gentle guy; but, fiercely protective. He weighs 98 lbs, has classic coloring, red & black, with a striking dark face.

Elsa, 2^{1/2} years old, show-line pedigree of West German/Czech & granddaughter of Vegas du Haut Mansard, her high-drive is evident as she progresses in scent recognition training with Jim Duncan. Weighing 63 lbs, she has a stunning full red & black coat.

Elsa had first litter May 7th 2017.

BEAR lives with a Chesapeake Firefighter family & trains with Jim!

Elsie, substance searches with her Chesterfield law enforcement family.

We also train with Jim Duncan!
K9 trainer for Chesapeake Police.
Jim provides each puppy a complimentary training session with their new family!
