2. Feb 10<sup>th</sup>, 2021 the US Election Assistance Commissioners unanimously adopted the newest VVSG 2.0 (2021) standard. The EAC no longer accepts submissions to test new voting systems to previous major versions 12 months after new major VVSG standards are ready to be used for testing. With the accreditation of the first VSTL to test to VVSG 2.0 on November 15, 2022, VVSG 1.0 and VVSG 1.1 are now no longer used by the EAC to certify voting systems as of November 16, 2023. 3. Voting systems are not automatically decertified by the EAC nor the South Dakota State Board of Elections as the result of VVSG migration. VVSG migration only affects the

standards manufacturers may use to obtain future EAC certifications, not systems previously certified to past standards. Source - <https://www.eac.gov/voting-equipment/voluntary-voting-system-guidelines>

4. The State Board of Elections on 8/19/2020 updated rule 5:02:09:02 from the 2002 standards to the 2015 standards required for approval of certification of voting systems for use in South Dakota. 6. During the Aug 23<sup>rd</sup> 2021 State Board of Elections meeting, there was approval of the meeting minutes from Aug 19<sup>th</sup>, 2020 where the administrative rule 5:02:09:02 was updated from 2002 to 2015 standard requirements. 7. Due to this change from the US Election Assistance Commission (EAC) VSSG update, the State Board of Elections should meet to update rule 5:02:09:02 from version 2015 to 2021 to reflect the new standards of the EAC.

8. As of 4/30/2024, there are 2 vendors currently in various stages of getting systems approved for the new VVSG 2.0 (2021). Source - <https://www.eac.gov/voting-equipment/voting-systems-under-test>
