The **Napoli Bow Front Barn Door Enclosure** is a 76" tall frameless structure with clear tempered glass, left or right single sliding door, overhead rolling system and a single door handle. Designed for use with a bow front shower pan. A standard Napoli Barn Door is available for standard rectangle pans.

The **Frameless Hinged Shower Enclosure** features a 75" tall clear tempered glass door and a fixed glass panel. Fixed glass panel height and width is determined by your specific project needs. Designed for use with rectangular shower pans.

The **Reversed Napoli Shower Enclosure** offers a perfect solution for placing the door opposite the shower head. This design comes in either a brushed or polished finish, has a combination Handle and Towel Bar (pictured), or a standard Back to Back Pull Handle. The enclosure is 76" tall.

The **Arezzo Bypass Barn Door Enclosure** comes in either a brushed or polished finish. The double sliding barn doors allow for easy access from both sides and the dual towel bars and frameless design complement the door's contemporary styling.

The **Fixed Glass Panel** features a clear, tempered glass panel that extends to the ceiling and is designed for use with rectangular shower pans. It is available in polished or brushed finishes.

The **Adjustable Hinged Door Shower Enclosure** offers flexibility for various shower pan widths. This sleek design comes in either a brushed or polished finish. The enclosure has an adjustable door for tolerance and a fixed glass panel that is 76" tall.

Our **Panel Systems** are designed to be both beautiful and durable. They are custom-manufactured for each specific project. Every panel is a single sheet with a non-porous surface, highly resistant to the growth of mold and mildew associated with unsanitary grout. Designed for use with a shower or a tub.

- Contemporary Series
- Old World Classic Series
- Reflections Series
- Diamond Series
- Traditional Series
- Vintage Series
- Vision Series
- Evolution Series

Our **Shower Pans** offer many styles, sizes and colors to choose from. Our shower pans are perfectly suited for the tough demands of commercial use. Each pan is a solid one-piece base and comes standard with an abrasion-resistant gel coat surface and a textured non-slip floor. Custom sizes are available for non-standard spaces.

Designing Solutions Since 1977, Prepared for Future Prosperity

Mincey is a recognized leader in the design and manufacture of cast marble panel systems and shower pans for the Hospitality, Healthcare, Multi-Family, and Military Housing commercial markets. Our company is founded on personal referrals, superior customer service and a commitment to produce the highest-quality product possible. Our cast marble products and materials are both purchased and manufactured in the USA; this allows an exceptional level of quality control and customer service, both unmatched in the industry.

Since purchasing 87 acres at the Gainesville Business Park located just a few miles from our original manufacturing facility, Mincey has carefully designed more than 380,000 square feet that we are proud to call our new home. Careful consideration and planning have gone into streamlining efficiency and productivity in all departments including research and design, mold-making, manufacturing, crating, shipping and administration. Our showroom highlights our custom work and unique products, providing a space to visualize and interact with designs for your projects. We take pride in innovative design while delivering quality products for you. We look forward to continuing this growth and surpassing your expectations.
