

WASTE INDUSTRY PRODUCTS
ROLLOFFS, DUMPSTERS, AND
CUSTOM DESIGNED CONTAINERS

COMPANY OVERVIEW

OUR STORY

H&S Manufacturing began in 1971 by developing row crop equipment for the sugar beet industry in the Red River Valley. In the nearly 50 years since then, product lines have expanded and H&S has become a regional, premier manufacturer of waste industry rolloff and dumpster containers.

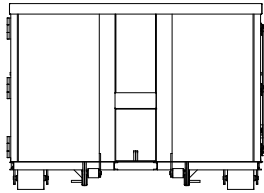

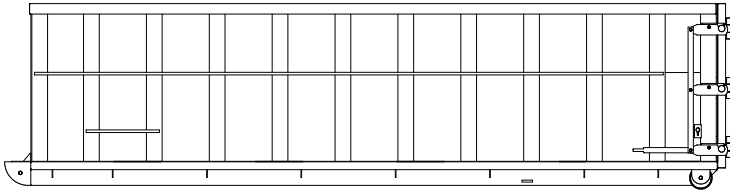

OUR EXPERIENCE

H&S Manufacturing has been fabricating dumpsters for over 20 years. More recently, H&S has progressively grown and expanded the waste container division with custom designs created using 3D design software in coordination with production process. The manufacturing of rolloff containers includes anything from standard construction rollofs to highly customized containers used for recycling, refuge transfer, compost, or gasket sealed product storage.

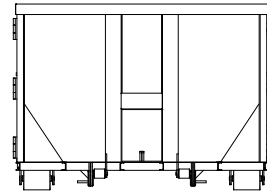

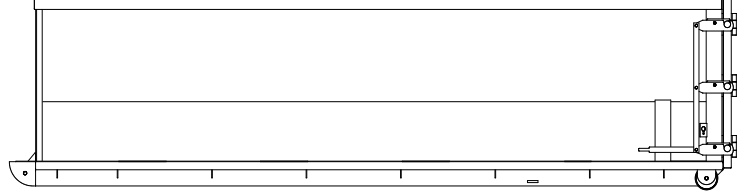

H&S Manufacturing stands behind our waste container product line and warrants its containers, for its intended use, to be free from defects in materials and workmanship for a period of one (1) year from the date of delivery.

ROLLOFF CONTAINERS

RECTANGULAR-STYLE

TUB-STYLE

Rectangular-Style Specifications:

Models	RO-20	RO-30	RO-40
