

AGRICULTURAL EQUIPMENT **SUGAR BEET CART**

HLS & S MFG., INC.

COMPANY OVERVIEW

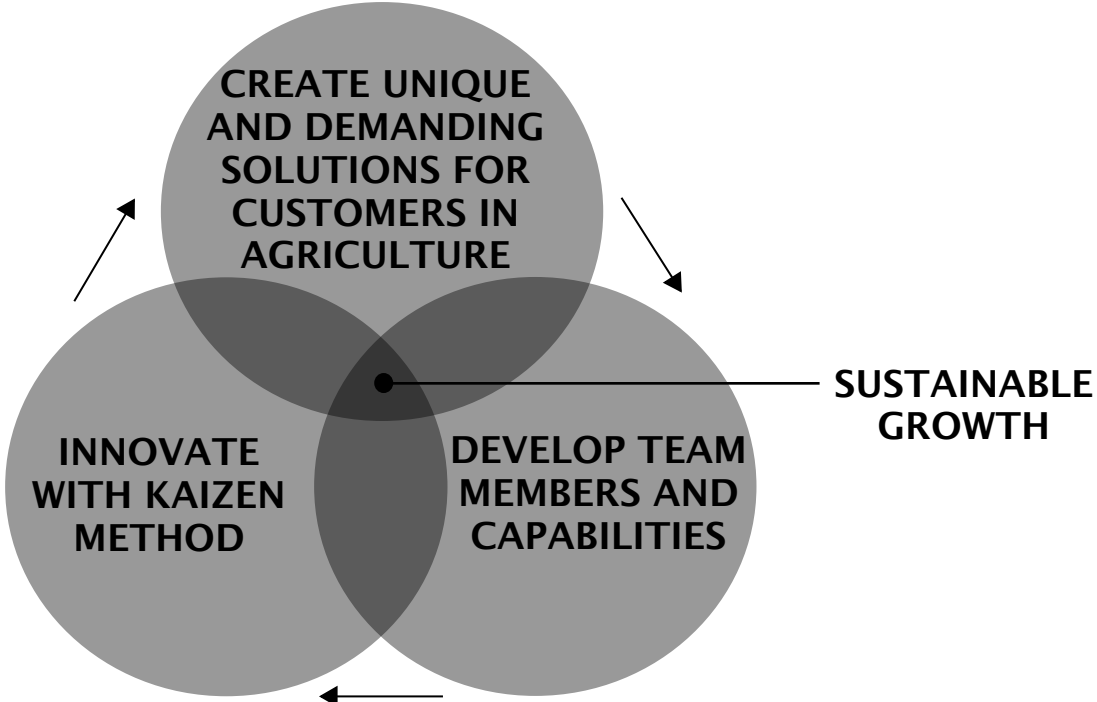

OUR STORY

H&S Manufacturing began in 1971 by developing row crop equipment for the sugar beet industry in the Red River Valley. In the 50+ years since then, product lines continue to expand to meet the ever changing needs of the agricultural industry. More recently, H&S has been a leader in the manufacturing of beet carts.

OUR EXPERIENCE

H&S Manufacturing has been manufacturing sugar beet carts for over 25 years. As a North American leader in the sugar beet cart industry, H&S strives to make the best sugar beet cart in the world. When H&S isn't manufacturing their efficient, tare cleaning sugar beet cart, the team of experienced H&S staff are creating new products or continually improving with the production of existing H&S products.
