

NUK Simply Natural™ Bottles and Orthodontic Pacifiers

- Breast-like nipple is shaped to soothe baby just like mom
- Helps promote healthy oral development
- Pacifier is accepted by 95% of babies and **won't cause nipple confusion.**
- Heart-shaped shield fits perfectly under baby's nose for breathing

Mimics the shape of Mom's nipple during breastfeeding

- Designed to mimic the fit, flow, and movement of mom as closely as possible, from 3- 9 nipple holes.
- Provides a natural feeding experience to ensure the mom-baby bond remains strong.
- NUK® Simply Natural™ bottles feature a super-soft nipple that mimics the shape of mom's breast while breastfeeding.
- The scoop nipple cavity allows space for baby's tongue and jaw to move naturally, just like they do when breastfeeding, and is **the only nipple known on the market to allow for posterior suck activation.**
