

3 AI APPS EVERY MARKETER SHOULD KNOW ABOUT! 🙌

SYNTHESIA

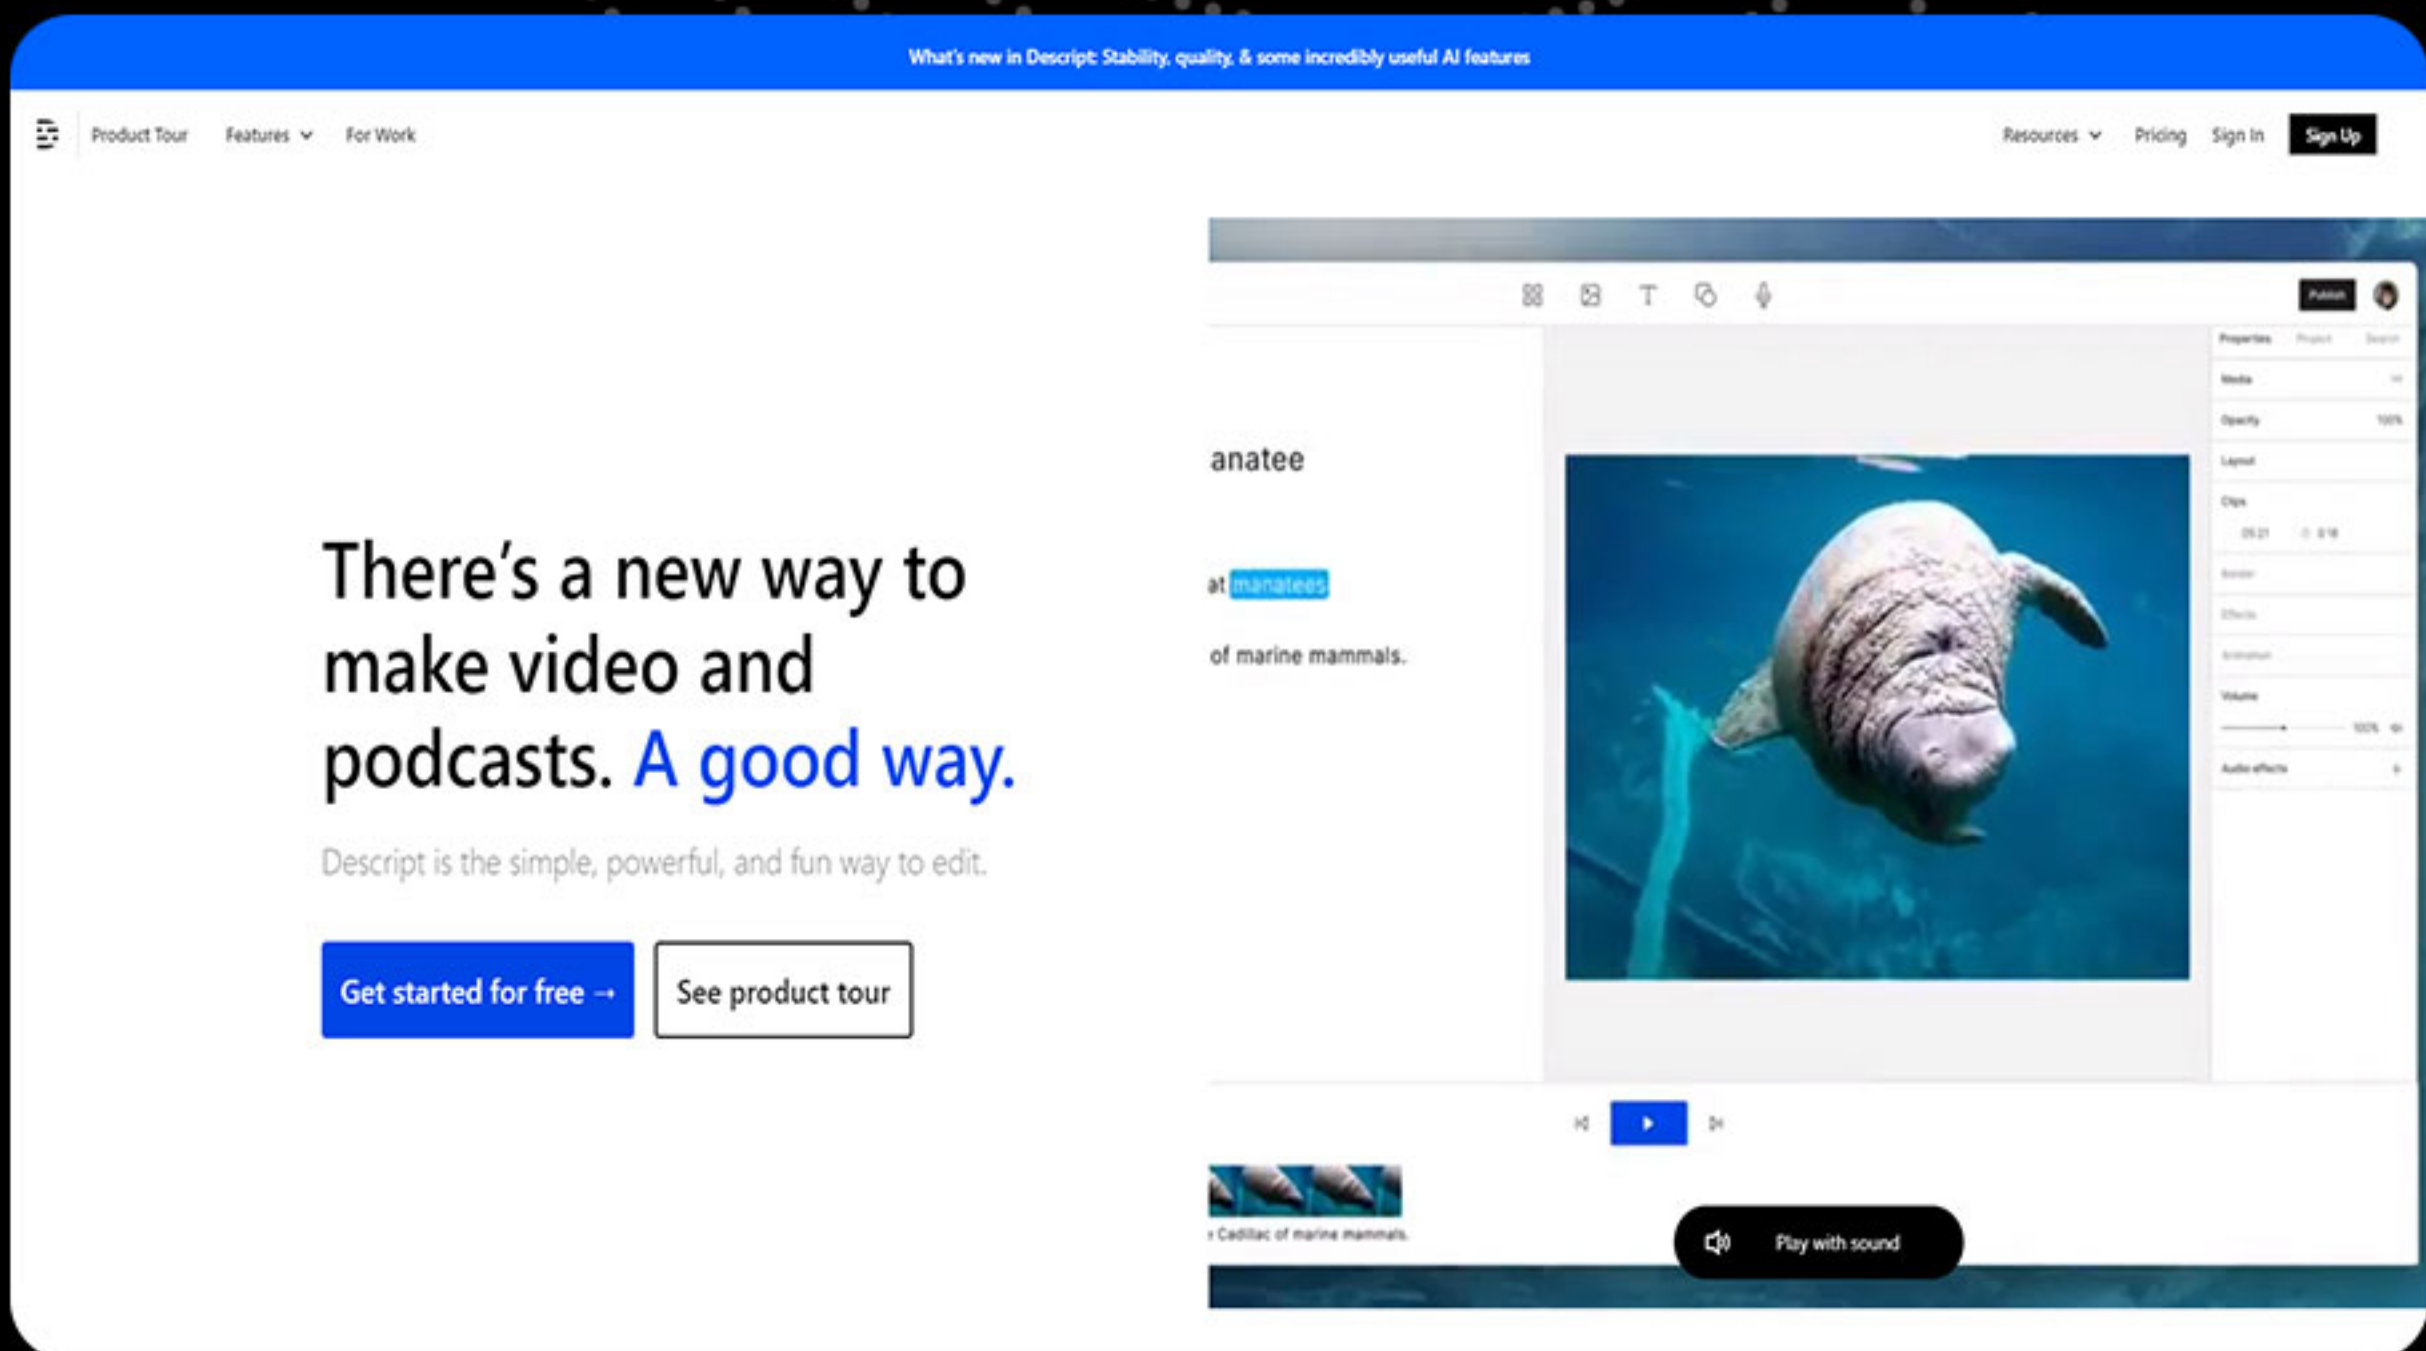

Create high-quality, engaging videos for your marketing campaigns with Synthesia that can generate realistic human faces and voices.

The screenshot shows the Synthesia website interface. At the top, there is a navigation bar with the Synthesia logo, a menu with items like Features, Use cases, Pricing, Resources, Company, Log in, and a blue 'Create Account' button. The main content area features a large heading '#1 AI video creation platform' and 'Create professional videos in 15 minutes'. Below this, there are three bullet points: 'Turn text into speech in over 120 languages', 'Choose from over 140 diverse AI Avatars', and 'No equipment or video editing skills required'. A blue button says 'Create a free AI video' with a sub-note 'No credit card required'. The central part of the page is a video player showing a demo of an AI avatar speaking. The video player has a 'See how it works' button overlaid. To the right of the video player is a control panel with options for 'Replace avatar', 'Background color', 'Background media', 'Volume', 'Speed', and 'Mute'. Below the video player, there is a transcript of the video content. At the bottom of the page, there is a testimonial: 'Trusted by over 50,000 companies of all sizes' followed by logos for B/S/H/, Teleperformance, BESTSELLER, accenture, and REL.

DESCRIPT

Take your content to the next level with Descript which can help you write, record, transcribe, edit, collaborate, and share your videos and podcasts.
