

Basic Skills 0

Evaluate each expression.

1) $3 - (-12)$

2) $2 + 2 + (-6)$

Find each product.

3) $(-6)(-4)$

Evaluate each expression.

4) $\frac{1}{4} + \left(-\frac{5}{4}\right)$

Find each product.

5) $\left(\frac{5}{6}\right)\left(-\frac{3}{2}\right)$

Find each quotient.

6) $\frac{\frac{8}{5}}{\frac{1}{3}}$

Solve each equation.

7) $4 + x = -4$

8) $-2x = -6$

Sketch the graph of each line.

9) $y = \frac{1}{2}x - 1$

Evaluate each using the values given.

10) $j + h + k$; use $h = 3$, $j = 1$, and $k = 3$
