Open Letter to POTUS

November 07, 2020

PROVE PRESIDENTIAL TODAY!

Family Courts in NY (from Carolinas) PROVES...USA Family Courts are INHUMANE. Child “Protection” Services are the Pipeline to Child Sex Trafficking through Foster Care.

USA Researchers Found

When children are “rescued” from sex trafficking cartels, the children are almost always put into a government-run system that, itself, is the source of most child sex trafficking within the U.S.: Child Protection Services and the foster care system.

THIS IS INHUMANE - THIS IS AGAINST GOD

The United States is the world leader in child sex trafficking, and it is being supported and funded, in large part, through the taxpayer-funded government programs of child welfare services and foster care.

Child "Protective" Services (CPS & ACS)

This U.S. Senate report concluded that the Office of Refugee Resettlement, an agency of the Department of Health and Human Services (HHS), had failed to

protect children from human trafficking, leaving them vulnerable to abuse at the hands of government-approved caretakers.

What I've Found

America is the #1 destination for pedophilia and child sex trafficking, and this huge market exists mainly because it is funded by taxpayers through the U.S. government Child Protection Services and Foster care system.

Furthermore they expose children or separated parents to and through known child abusers; routinely approved as foster parents, which allows child sex trafficking to continue in the U.S. The Los Angeles Times published an article exposing how 1000 “convicted sex offenders” had been given a “green light” by CPS to become “approved foster parents” just in Los Angeles County.

Some References

1. Attorney Michael Dolce, from the law-firm Cohen Milstein, wrote an opinion piece published by Newsweek stating that the nation’s foster care system is set up to sexually traffic children.
 - a. Dolce, who speaks from experience, from representing children abused in foster care, stated: Here's the Ugly Truth, "Most Americans who are victims of sex trafficking come from our nation’s own foster care system. It’s a deeply broken system that leaves thousands vulnerable to pimps as children and grooms them for the illegal sex trade as young adults. We have failed our children by not fixing the systemic failures that have allowed this to happen for decades".

2. Express-News. Sheriff Brown told the San Antonio Express: “It’s not a question about whether there are more, it’s just about how many.”
 - a. “Those girls were taken from some environment and then you have some jackass like him abusing these girls that already have troubles,” Brown

said. “I’m aggravated at the whole system. I’m aggravated at the company that placed these girls. It was a money-making deal, the way they were running those girls through there like livestock. It wasn’t about making a better world for them. They were making a profit off them.”

3. U.S. District Judge Janis Graham Jack ruled against the State of Texas in December of 2015, stating that the foster care system named in the lawsuit was unconstitutional, and in her 255 page ruling, Judge Jack stated: Texas’s PMC (Permanent Managing Conservatorship) children have been shuttled throughout a system where rape, abuse, psychotropic medication, and instability are the norm.
4. Eighty-six percent of runaway children in the United States suspected of being forced into sex work came from the child welfare system, according to a 2016 analysis of cases reported to the National Center on Missing and Exploited Children. Of the 79,000 child sex trafficking victims estimated to be in the state, the vast majority were in foster care or had previous contact with Child Protective Services, according to a recent University of Texas study.
5. A young survivor, who goes by Withelma “T” Ortiz Walker Pettigrew, spoke to the Committee on Ways and Means and the Subcommittee on Human Resources. Pettigrew shared that she had been in foster care from birth until she was 18 years old. She expressed that seven years of her 18 year journey through the foster care system consisted of being sexually exploited in the streets, on the internet, in strip clubs, massage parlors, and express papers. Pettigrew acknowledged that the transition to sex trafficking was not so difficult because of the training grounds of foster care.
 - a. While in foster care she had been taught and reinforced to believe that she was just an object for financial gain.

This MUST End 2020

Today, in 2020, more of this practice...of approving sex offenders and pedophiles to become foster parents to meet the demand of the lucrative child sex trafficking business of USA continues. We must not go into 2021 this way POTUS. This Practice Must End Now.

The Challenge

The USA is so Divided. Also, Child sex trafficking is a lucrative business, and it needs the federal and state funding that child social services and the foster care system brings in to allow it to operate.

Even if you, yourself, have “good motives” and do not directly facilitate child sex trafficking (like Family, Friends, Social Workers, Hospitals, Politicians, Churches, Schools, Businesses, etc.) you are part of the system if you receive government funding or participate in it in ANYWAY.

So it is unreasonable to think that anything can be done to change this system if one is actively participating in it, WITHOUT a Solution to OVERCOME.

Risky. Life Threatening. Necessary.

With that being said I will live the rest of my Life, with my Life, FOCUSED on Making sure "This Practice" (that goes AGAINST our Human Rights, Due Process & God) Ends, for Humanity & Generations to Come. Please be Presidential & Let's **B.A.S.H.** to a New World. All it takes is Belief w/ #ACTION to Serve Humanity.

Will you **B.A.S.H.** with us to **END HUMAN TRAFFICKING** through your Administration?

Joseph B.A.S.H. Bailey President. CEO. USA Activist. World Operations. I Have a Dream Too GLOBAL.

FYI: Family says "Enough is #ENOUGH. See Press Release & Conference Monday November 16th, 2020.
