

One month (hopefully sooner) to stop the spread of the coronavirus.

Dear Campers,

As we all are going through difficult times with the coronavirus outbreak, we are asking all of our campers to please obey the state and federal rules created in result of this.

The governor of Wisconsin has issued a safer at home order that prohibits “non-essential business” and prohibits “all non-essential travel” during this outbreak until April 24 (unless announced otherwise).

We are asking all of our campers to stay at home and try to prevent any spread of the virus.

The campground roads are open if anyone is in dire need of visiting their camper or personal property. If this is the case, we ask our campers to please follow the state and federal guidelines as far as staying only on your site, not coming in groups, and not grouping together with other people (campers) at your site. The water will still be turned on as scheduled.

With the help of everyone sticking to federal and state guidelines, we can get through this (and hopefully quickly). Keep safe and we look forward to seeing everyone when everything goes back to normal!
