EXPERTISE

We AIM to be a part of the movement to bring PK-12 and employers together to reimagine how students transition from high school through postsecondary education and into careers, as we work with youth and adult learners transitioning through all these stages on a daily basis.

CONNECTING THE DOTS

What makes our Foundation unique currently is that we have already made an impact in our community with very little funding because of our strong relationship with the Neighborhood Association and the Gas Station on the corner. Visit our website and see for yourself: www.ttsfoundation.org

CONNECTING THE DOTS

We believe in fueling the whole person: mind, body, and soul. To that end, we stress the importance of maintaining good physical health.

We keep our scholars busy, motivated, and engaged with various outdoor recreational activities.

Studies show that a physically healthy child performs better academically.
