CAD Services

Computer-aided design (CAD)

Is the use technology to aid in the creation, modification, analysis, or optimization of a design, CAD increases the productivity of the designer, improve the quality of design, improve communications through documentation CAD output is very visual and accurate to present information.

Introduction

In todays world, information is critical and Adept Space can fully support a client's CAD needs in managing their Real Estate portfolio to ensure they have up to date and accurate information as required.

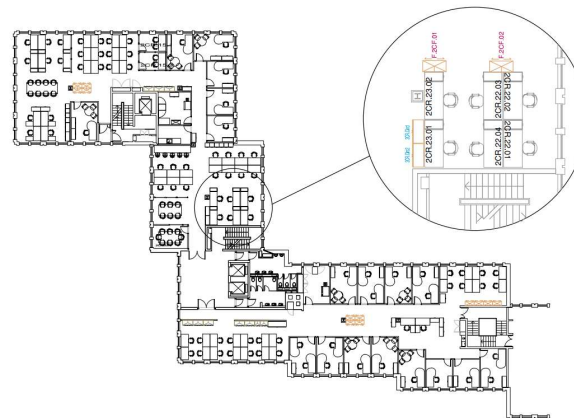

We offer an on-demand service; as and when required, or a fully managed service on an annual contract basis.

We are UK based but support clients globally.

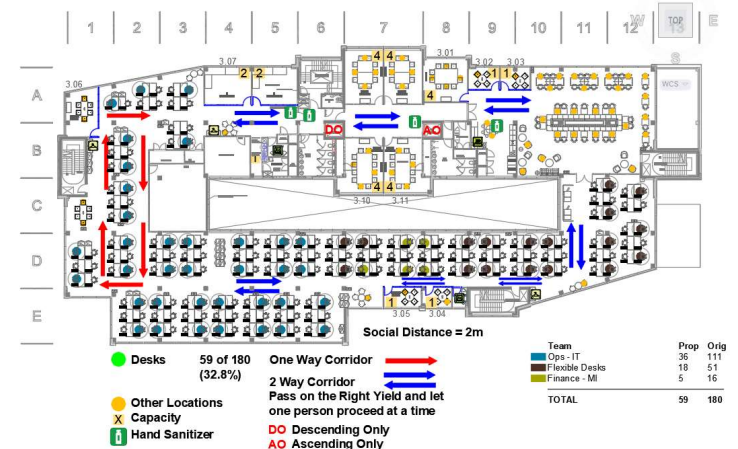

We can bring current plans up to an agreed standard to ensure consistency across a client's portfolio.

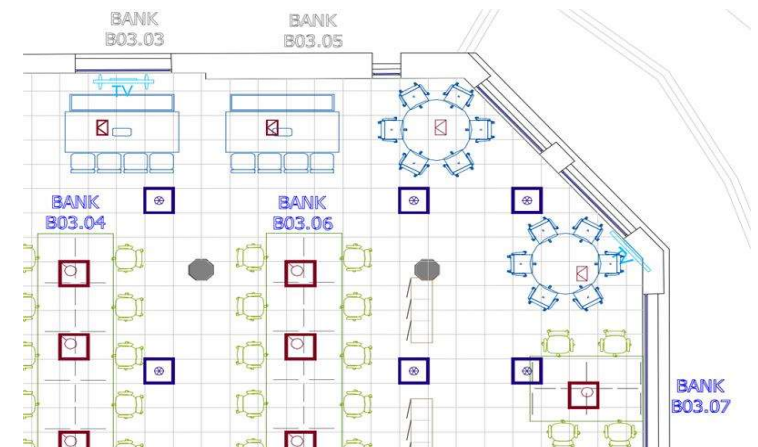

We can also work with an in-house CAD team to alleviate pressure during busy periods.
