

RT ADX	Demonstrate the maternal right adnexa
LT ADX	Demonstrate the maternal left adnexa
CVX	Sagittal cervix with measurement
CEPH	Fetal lie, obtained at the lower uterine segment, note CEPHALIC, BREECH OR TRANSVERSE
SAG PL	Sagittal placenta, margin to margin, demonstrate inferior edge relative to the cervix, with measurement if applicable
TRV PL	Transverse placenta
PL CI	Placental cord insert
	Subjectively assess the amniotic fluid
	Demonstrate Fetal Biometry:
	Abdominal circumference
	Femur length
	Head Circumference and bipareital diameter
	Demonstrate Fetal Brain:
CP	Choroid plexus, note and measure cysts if applicable
LV	Lateral ventricle, measure at the level of the
CSP	Cavum septum palucidum
FALX	Falx
CB	Cerebellum, with measurement
CM	Cisternal magna, with measurement
NF	Nuchal fold, with measurement up to 21 weeks gestation
	Demonstrate Fetal Face:
ORBITS	Orbits, measure only if they appear subjectively wide or narrow
N/L	Nose/Lips
PROFILE	Profile

	Demonstrate the Fetal Spine:
SAG C SPINE	Sagital spine, cervical
SAG T SPINE	Sagital spine, thoracic
SAG L SPINE	Sagital spine, lumbar
SAG S SPINE	Sagital spine, sacral
TRV C SPINE	Transverse spine, cervical
TRV T SPINE	Transverse spine, thoracic
TRV L SPINE	Transverse spine, lumbar
TRV S SPINE	Transverse spine, sacral
	Demonstrate Fetal Heart:
4CH	Four chamber heart
SEPTUM	Septum
RVOT	Right ventricular outflow tract
LVOT	Left ventricular outflow tract
	Demonstrate Fetal Abdomen:
HT DI ST BL	Long axis view of the abdomen to include heart, diaphragm, stomach and bladder
KIDNEYS	Kidneys, with and without color
3VC	Three vessel cord, note two vessel if applicable
CI	Fetal cord insert
BOY/GIRL	Fetal gender
	Demonstrate Fetal Extremities in dual screen view:
UPPER EXT	Upper extremities
HANDS	Hands
LOWER EXT	Lower extremities

FEET	Feet
------	------
