Swap that Invasive Shrub for a Native One!

The Wild Rivers Invasive Species Coalition (WRISC) is hosting our fourth annual **Invasive Species Trade-Up Days** in May, with host locations in MI and WI. Trade-Up Days are an opportunity for landowners to remove an ornamental invasive shrub from their property, such as Japanese Barberry, Buckthorn, or Burning Bush, and exchange the plant for a monetary voucher to buy a native plant replacement. **Each voucher is worth \$5, and you are able to receive up to \$50 if you bring in 10 or more invasive species!** Vouchers are redeemable at participating greenhouses and plant sales for the purchase of a native plant. Customers are responsible for any price difference. This year, we have an exciting list of native plant sellers! Call ahead if looking for a specific species.

Flowerland Greenhouse - 1511 S Stephenson Ave, Iron Mountain, MI 49801

Chenier's Greenhouse - 801 US-2, Norway, MI 49870
