Maple Syrup Production, 2020

Wisconsin's 2020 maple syrup production was 265,000 gallons, down 5,000 gallons from 2019. The number of taps decreased by 20,000 in 2020 to 780,000 taps. Yield was 0.340 gallon per tap, slightly above the 0.338 gallon per tap in 2019. In 2019, the average price Wisconsin maple syrup producers received was \$32.50 per gallon, up 10 cents from 2018.

The 2020 Wisconsin maple syrup season began on February 15, 2 weeks earlier than last year. The season ended on April 26, compared to April 30 last year. This year's season averaged 29 days, 5 days longer than last year.

USDA-NASS 2021 Maple Syrup Inquiry: A Chance for Your Voice to be Heard

- NASS’s annual Maple Syrup Inquiry provides vital data on each year’s production and prices.
- To reduce respondent burden, we will only be sending the survey to a selected sample of maple syrup producers in 2021.
- Since we will not be surveying every maple syrup producer, your response is more important than ever to ensure accurate statistics about your industry!

Inquiry Results

Results of the 2021 survey will be available on June 10, 2021 .

Navigate to: <https://www.nass.usda.gov/>

Click on ‘Publications’ in the green menu at the top of the page.

Click on “June” link under the “Reports Calendar.”

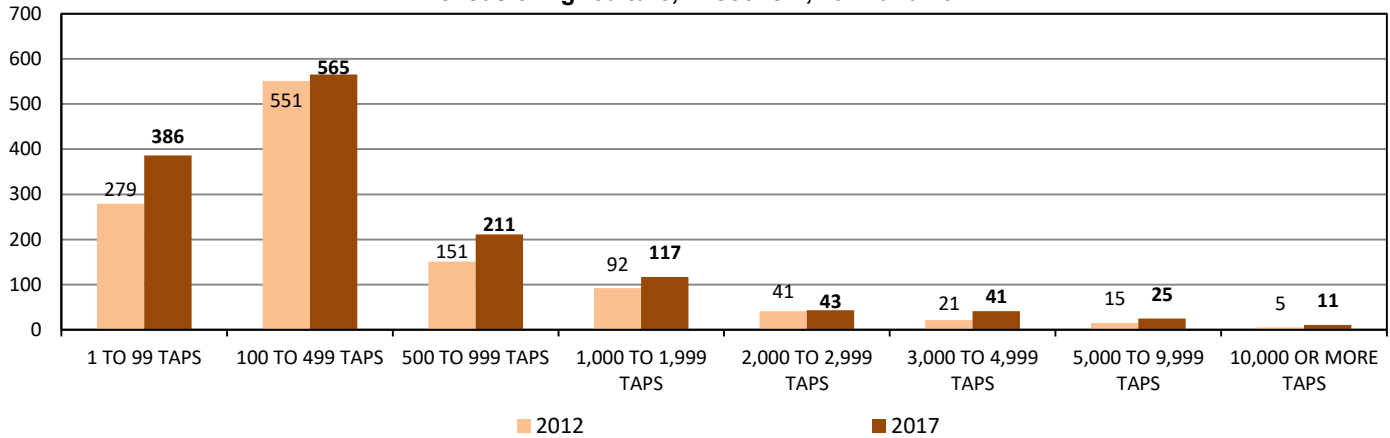

Then click on the “Crop Production” link in the June Calendar.

Census of Agriculture, 2017

Data from the 2017 Census of Agriculture reveals a detailed portrait of the maple syrup industry, including county level estimates and estimates broken down by operation size. In 2017, Wisconsin’s 1,399 maple sugaring operations produced 240,035 gallons of syrup and generated 7.46 million dollars in sales.

Complete results of the 2017 Census are available at: <https://nass.usda.gov/Census>
