

# Solutions and Incentives for Large Commercial and Industrial Customers

If your facility isn't energy efficient, you could be wasting 30 cents of every dollar you spend on energy.\* PECO can help you take greater control of your facility's energy use, which can make your business more profitable and add value to your property.

## Reduce Overhead and Operating Costs

Lighting, heating and cooling account for more than half of the energy use in many large commercial and industrial facilities, including office buildings and retailers. Minor changes like shifting your startup or shutdown times could help you reduce energy use by 10% with little or no cost.\*

PECO energy efficiency solutions can help you take your savings to the next level. We have the technical expertise and financial incentives to help your facility save energy and money.

## Incentives for Energy-Saving Measures

Whether you're looking to reduce the operating costs in your existing facility, constructing a new facility or planning a major renovation, we offer incentives for dozens of proven energy efficiency measures to make your upgrade projects hassle-free and affordable.

We know you're busy, so we're here to assist you with improving energy efficiency in your facility. We can help you find smart solutions to control your energy costs and improve your bottom line.

See the chart on the back for typical energy efficiency solutions for large commercial and industrial facilities.

PECO. The future is on.

# Typical Energy Efficiency Solutions for Large Commercial and Industrial Facilities

## Interior and Exterior Lighting Equipment Types

ENERGY STAR® Screw-In LED Bulbs	LED Replacement Lamps (Tubes)
LED Accent/Track Lighting Fixtures	LED Refrigeration Case Lighting (Reach-In)
LED Low-Bay/Troffer/Surface and Suspended Linear Fixtures	LED Refrigeration Case Lighting (Open Case)
LED High-Bay Fixtures and/or Retrofit Kit	LED Wall-Mount Fixtures and Retrofit Kits (Exterior)

## HVAC

Air-Cooled or Water-Cooled Air Conditioner	Energy Management Systems
Retrocommissioning	Demand Control Ventilation
Air-Cooled Chillers	

## Data Centers

HVAC System Optimization
Server Virtualization
Hot/Cold Aisle Containment

## Motors and Drives

Variable Frequency Drive on HVAC Systems
Variable Speed Drive on Kitchen Exhaust Fan
Variable Speed Drive on Process Motor < 50 HP

## Why Improve Your Facility's Energy Efficiency?

Nearly 30% of the energy consumed by buildings is used inefficiently or unnecessarily.\* By improving your facility's energy efficiency or integrating energy efficiency into plans for renovations or new construction, you can save on operating costs and create a more comfortable, safer environment for employees and customers. You'll also differentiate yourself as an environmental steward by reducing energy use and greenhouse gas emissions.

## Savings for All

PECO offers solutions and incentives for businesses and organizations large and small. Our solutions cross every sector from commercial and industrial to nonprofits and government to retail and real estate.

In addition to standard incentives for energy-efficient heating and cooling systems, refrigeration equipment, lighting, variable frequency drives and custom measures, we offer incentives for whole building systems and new construction.

## Four Easy Steps to Get Started

Contact the PECO team, and we'll help you:

1. Evaluate your energy efficiency opportunities.
2. Choose qualifying equipment and measures.
3. Apply for your incentives.
4. Enjoy all the benefits of energy efficiency.

**New Construction – Whole Building Systems†**  
Comprehensive, building-wide measures including automation and remote systems that improve the facility's overall efficiency.

- 11%–20% Improvement Over Code
- 21%–30% Improvement Over Code
- 31%–40% Improvement Over Code
- 41%–60% Improvement Over Code
- > 60% Improvement Over Code

**New Construction – Interior Lighting††**  
Construction of a new facility from the ground up or a major renovation with a change of building use.

- ≥ 10% and < 20% of Code
- ≥ 20% and < 30% of Code
- ≥ 30% and < 40% of Code
- ≥ 40% of Code
