

POA Ponds Committee *'Pond Views'*

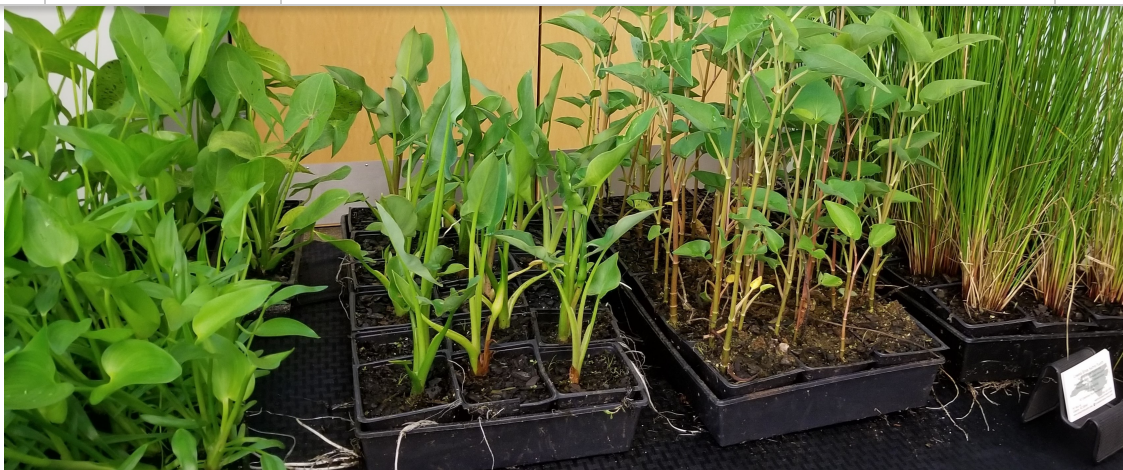

March 2, 2020

Our 6th Annual Ponds Education Meeting is May 12, 2020

The POA Ponds Committee invites you our 6th annual meeting at the Community Center on May 12th from 10:00 to noon. Our *Pond Views* readers are getting the first notice of this year's program.

We have two speakers lined up. A biologist from the Inland Fisheries Division of the NC Wildlife Resources Commission will talk about the best practices and benefits of stocking fish in your pond. If you read Charlie Wood's article in the February issue of *Cat-Tales*, "Fish scales and fish tales," then you know there are benefits of stocking fish to enjoy beyond fishing. We can all learn more about how to go about it the right way and have a better chance of success from an expert.

Our second speaker is back this year from Lumber River Native Plants in Gibson, NC. Jep Whitlock, owner, will kickoff our 2020 Pond Buffer Zone Plant Sale. Last year Mr. Whitlock brought several specimens with him. He will do so again this year and discuss them in detail.

Samples of Pond Buffer Zone Plants Shown at the 2019 Plant Sale

Last year our plant sale was very successful with over 1100 plants sold. We have added some new plants to the mix this year. There will be a two-week period following our meeting for residents to place orders. Information and order forms will be available in various notices and reminders leading up to May 12. Save the date. We hope to see you there.
