

SEAL

A Trust Seal is the impression of the Trust or Office of Trustee, inked stamp, or crimping embosser. It is used to authenticate the Trust and make the Trust act official. The Seal comes in (PNG) Portable Network Graphics format that supports lossless data compression which keeps your image at the highest resolution. Seals can come in a multitude of colors; however, it is recommended to have it in black & white for easy printing without needing a color printer. Options for the seals are:
