

NATICK SPORTS CLUB

The Natick Sports Club - Natick, MA - Cardio Area

The Natick Sports Club was interested in updating their image and decided to start with the cardio area of the club. Since the cardio area was adjacent to the main corridor of the club, it was important to come up with a design that would allow for privacy without constructing any fixed partitions.

The solution... A mixture of 4'x10' panels that were imprinted with a decorative film to help brand their image as well as, opaque panels.
