

RING DOORBELLS

As suggested by owners at the 2021 annual meeting, one Ring doorbell was installed, tested, and evaluated as to whether it generally matched to look and style of the complex. As a result, the board approved the ability of unit owners if they choose so to install a Ring Doorbell Pro with a Galaxy Black faceplate. This model can be installed using the existing doorbell wiring. Please see below for links to these products on Amazon. Further information can be obtained from Ptarmigan.
