

# ENVISAGE™

ENVISAGE™ KEEPS WORKERS VISIBLE AND SAFE.

NASCO

## NASCO Envisage™

Envisage means to have an image of something in advance of realization. In high visibility protective outerwear, it means the worker is visible to oncoming traffic, allowing safe maneuvering through a work zone.

Envisage™ is waterproof, breathable, windproof and high visibility protective outerwear. Utilizing a waterproof, breathable film, Envisage™ ensures worker comfort by keeping the worker dry as well as reducing heat body stress during foul weather. During low light situations, the ANSI/ISEA 107 compliant background material and 3M Scotchlite™ keeps workers visible and safe.

### Multi Hazard Protection:

- High Visibility Rated – ANSI 107, Type R, Class 3, Level 2 compliant
- Waterproof, Windproof, Breathable
- Comfort Rated – ASTM E96 & F1868

#### QUALITY

Stitched and taped seams.

#### PROTECTION

2" reflective trim at biceps, sleeve cuffs, around the chest and harness over shoulders

**3M** Scotchlite™  
Reflective Material

3M, Scotchlite and Thinsulate are trademarks of 3M.
