

WorkHard™

WORKHARD™ IS IDEAL FOR HEAVY DUTY
FOOD PROCESSING AND SANITATION WORK.

NASCO

NASCO WorkHard™

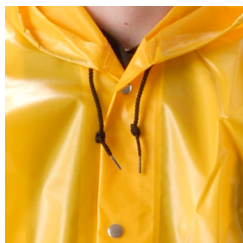

WorkHard™ is a durable, heavy duty protective product designed for food processing and sanitation applications. With an exterior coating, it easily sheds water, oils and sanitation chemicals while it resists being broken down by fats and acids. Sealed seams, metal hardware, and a rugged material extend its life cycle.

Features & Benefits

- Waterproof - Protects workers from the elements
- Lightweight - Increases worker comfort
- Dielectrically Welded Seams - 100% waterproof seams
- Abrasion Resistant - Increases durability and reduces the number of replacements
- Long Life Cycle - Reduces overall program cost

QUALITY
Dielectrically welded seams.

PROTECTION
Protects workers from the elements.
