

THE **Black Book**TM

We prepared this Directory of over 400 Advertising and Marketing Services in southern Fairfield County to make buying locally easier. Whether you need a full-service agency, a web designer or an illustrator with just the right look, they're all here.

We reviewed the website of each company to verify they are active and indeed local. Half were actually in Manhattan, India, or elsewhere. (Unfortunately, search engines can no longer be trusted as firms may be listed as "near you" even if a thousand miles away.)

Providers are categorized by the services offered. Each company is listed under its primary function, with a note regarding ancillary services, plus contact information, year founded, number of staff and industry specialties.

AGENCIES are expected to provide high-level advice on marketing strategy and able to plan and manage a comprehensive advertising campaign employing a wide range of traditional and digital media. SPECIALISTS typically are masters of one or more capabilities, such as Graphic design, Web design, Branding, Influence, or Photography.

For updates see www.EntrepreneurshipFoundation.org/BlackBook.

To add or update a listing, email Roer@EntrepreneurshipFoundation.org

Thank you for buying locally.
