

Crime of the Century

Musk has lifted the twitter veil, and it's ugly. What happened is just starting to be understood but it looks like the DOJ & FBI engaged in deliberate acts of interference in the 2020 election to foster a Biden Administration. They definitely interfered with the 2020 political election process.

We find evidence of weekly meetings between the DOJ & FBI along with future Democratic Biden Whitehouse staffers and Twitter, primarily to suppress political speech of the Republican party candidates and supporters. We find Twitter routinely acted on FBI and DOJ requests to suppress political dialog concerning detrimental information about the now President and then candidate Biden and his family. Twitter, Facebook, Google and others were being directed to censor conservative communications and intentionally interfere with GOP political fundraising.

This was a blatant conspiracy by Government actors to interfere with the 2020 Presidential elections, to the detriment of Trump and others.

Many of the Government actors, both congress and employees, were oath takers of their offices or were controlled by oath takers. Written and signed oaths stating faithful allegiance to the Constitution and federal laws while discharging their duties.

Contemporary election tactics have elevated social media's "negative or derogative information" as more persuasive than more important good deeds, aspirations or promises. Social media has supplanted the podium, bully pulpit and newsprint as the primary political speech conduit. It has become gospel to the illiterate and the legacy news media.

So, when Government actors ask Twitter and other social media platforms to suppress free speech, and Twitter complies, election interference occurs and the First Amendment is abridged. Both constitute three crimes. Conspiracy, Interference and the violation of oath by Government employees.

A prime example of intentional election interference was the "interrupting" of public discourse, by Twitter and others, of the Hunter Biden laptop. When Twitter complied with the request of the Biden Administration to interfere, they became State Actors and conspirators. Both parties have committed crimes. Twitter committed election interference and criminal conspiracy with the Government actors, and, the Government actors committed criminal conspiracy and oath violation. All three crimes can result in imprisonment and removal from office (employment).

We have the crime of the Century, committed by the Government against its own people, for political gain by the democrats and control by Deep State unelected bureaucrats thirst for power. Eighty FBI agents were assigned to spy on U.S. citizens and censor their communications with other citizens. This censorship was applied to conservative speech and to shield the corruption of the Biden family.

We know this happened by Twitter's own admission. We know they were asked to interfere by the Government. We know they did it. We know which Government agency did the asking and when they did the asking. What we don't know yet is "which government employees and elected officials were involved". Who hatched the plan? Who gave it life? Who approved the marching order? No matter who, FBI Director Wray is guilty of violating his oath of office and violating the U.S. Constitution.

A coordinated conspiracy against the Republic and its people.

This is the Crime of the Century.
