

Let's Go Brandon

The "Let's Go Brandon" euphemism for "Fuck Joe Biden" ordinarily would be a distasteful chant against a sitting president. The chant has been shouted at college and professional football games, NASCAR and concerts. It was even uttered by a congressman and a commercial airline pilot. I said ordinarily would be a grotesque chant, but this is not an ordinary president.

The chant was earned by president* Biden and his administration. The total disregard for American citizens is overwhelming. I challenge anyone to state one positive accomplishment that benefitted U.S. Citizens. Biden has even pissed on the shoes of legal migrants and residents.

There are so many failures of this Administration that it is hard to keep up with them: Afghanistan, Southern Border, Economy, Law & Order, Misuse of the Patriot Act, China Flu pandemic, foreign affairs. Let me just highlight a few.

Pulling out of Afghanistan was a good idea favored by many in the U.S. It was the tragic method of leaving Afghanistan. Thirteen marines lost their lives unnecessarily due to an inept policy on the retreat. We pulled the military before the U.S. citizens! The WH left over a thousand citizens and allies behind enemy lines without even trying to extricate them. Private citizens worked against our own government to rescue them. We surrendered \$81 billion dollars of military equipment to the enemy along with an airbase. Who paid the price for this debacle? Nobody. FJB.

The Southern Border is a disaster. It has endangered the lives and health of our nation. The total disregard for the immigration laws has gone unpunished. Several of the WH edicts have been overturned by the courts as the edicts are unconstitutional. Border Patrol has apprehended known terrorists among the people coming across the border. The failure to stop flow of people and drugs has not only embolden the Mexican Cartel, but has enriched their coffers. Irrational rules for vaccines and masks are imposed on U.S. citizens and legal residents, but illegal aliens are free to enter the country. Who has been fired for these actions? Nobody. FJB.

The forced shutdown of businesses and schools wrecked our economy and employment records. Farmers had to destroy livestock and crops as the restaurant trade was demolished reducing the demand for goods. School teachers created a false flag fear of the Chinese Flu while nurses, doctors, fireman and police performed their duties. As a result, the supply chain was disrupted. The government requirements for masks, vaccinations eliminated truck drivers from the solution. CA required truckers use equipment built after 2011. All of these actions has led to record highs in gasoline, meat, clothing, plastics and

Let's Go Brandon

transportation. Meanwhile the employment rate has dropped. Note the employment rate dropped. People are quitting their jobs and right before Christmas. Yes, wages increased by not quite 3%, but inflation rose to over 7%. That means the low and middle-income workers are screwed. Who pays the price? Not congress, not rich people. FJB.

The crime rate across the country has skyrocketed due to bad judicial policy of non-punishment for crimes. The Marxists push to defund police allows for the burning of cities, outright theft of goods, violence on the street and a murder rate not seen since the 70s. The WH ignores the crime wave as though it does not exist. They focus on parents at PTA meetings protesting racial teachings and programs advocating for the queer community. George Soros is the usual party guilty of installing Marxist district attorneys, but don't let Michael Bloomberg and the Koch brothers off the hook. They connive to promote anti-second amendment and open borders. Who suffers for the not enforcing law and order? The inner-city people and children. FJB.

The DOJ/FBI have become so corrupt that the people in this country have lost confidence in the once premier law enforcement agency. The use of the FBI to terrorize citizens at the request of the DOJ and WH is unprecedented. A journalist home is raided at dawn with armed agents. Why not call his attorney first? Nah, need to strike fear. FBI worked against not only to besmirch a presidential candidate, but a sitting president. They abused the FISA process and spied on private citizens all in the name of politics. The FBI has been tagged with participating in the kidnapping of the Michigan governor and the Capitol trespassing on Jan. 6. Attorney General Garland lies to congress. Who is getting arrested or fired? Nobody. FJB.

The China Flu has become the go to for the Marxist to control the people. Without regard to science mandates to be vaccinated, wear masks, stay indoors and even force children to get vaccinated. Under what science has this been done. We are 18 months down the road since the epidemic started and there are now more cases of the Chines Flu under ten months of the Biden WH then under President Trump. Trump paved the way to not only develop the vaccine, but also the distribution method. Biden Admin has done nothing. Prior to being president* Biden pushed back on the use of the vaccine. Now he is begging people to get it or become a second-class citizen. Biden is exercising his Marxist power to get private industries to enforce his mandates as he knows he legally cannot mandate such actions. The pussy-fied industries play along. The Vaccine is now both a political and marketing tool. The newly identified Omicron strain is the "new and

Let's Go Brandon

improved Tide". It allows big Pharma to sell more vaccine. The same vaccine that they advertised as 90% effective and all of a sudden it is less than 30%. Are the clothes really dirtier? The CDC and FDA have become an arm of the democratic party. They flip their story so many times it has diluted their stature. Then there is Dr. Fauci-Mengele who sees viruses around every corner and wants to experiment with your children. He is modeling his plans after Nancy Pelosi – you won't know what side effects the vaccine will have until we jab your kid. Dr. Fauci lied to congress about the Wuhan Lab and Gain-of-Function enhancing the virus. Why hasn't he been fired or arrested? FJB.

Foreign affairs has always been Biden's weak spot. He is totally out of his league in spite of him being on the Senate Foreign Relations Committee for decades. Biden trying to resurrect the Iran deal puts Israel and Saudi Arabia at risk in the middle east. Failure to talk with France about replacing them on the submarine deal. Failure to actively move to protect Taiwan and Ukraine threatens Europe, Japan and South Korea. Biden's abject failure in pulling out of Afghanistan by not consulting with our allies put their troops and personnel at risk of death. In spite of that our allies got their people out. Biden abandoned our people. Russia is now on the border of Ukraine with 175,000 troops. China has been flying sorties over Taiwan for over a month. Our military is rewriting manuals to be more woke in the use of pronouns. Biden is licking his ice cream cone. Many people will pay dearly for Biden's ineptness. FJB.

Thanksgiving has just passed and there are many things to be thankful for in my world. Here are some. Police that are respected keep us safe. Supermarket workers that braved the pandemic so we could eat. Barbers and hairdressers that can now cut hair without having to stop and catch their breath behind a mask. I am healthy and so is my family. I am grateful to those dems that have buyer remorse and can see that life was better before January. Hopefully they will remember that come November 2022.

I am thankful to the college students and NASCAR fans that woke up America with their chant of "Fuck Joe Biden". And to those selling "Let's Go Brandon" memorabilia. Makes Christmas Shopping easy this year.

God Bless the USA!
