

Defining Woke

Woke is a disease. A mental health issue that manifests its self whenever there is the slightest tic to the sensibilities of society's misfits. It matters less what the issue that confronts their myopic view of the world. It could be race, gender dysphoria, drag queens, queer conversations, abortion, pronouns, almost anything that the common person with an intellect, sense of humor or religious belief takes in stride.

This Wokeism Disease is more dangerous to society than TDS (Trump Derangement Syndrome). TDS is a disease that affects liberal, left wingers that hate God, country and the flag. They also hate low gas prices, low unemployment and anything that makes America strong and independent. Woke people hate anyone with a modicum of common sense and decency. They are people who love the sound of their own keyboard. Similar to a 5-year old having a screaming tantrum, just because.

People afflicted with Wokeism do not like children. They want to inflict pain on them. Woke People favor mutilation of children of both sexes. They believe that children that can barely ride a bicycle can opt to have their penis cutoff or their breast removed, because they were told by some whacko school teacher – or parent- that suffers from Wokeism.

Woke people are constantly looking for a perceived hurt or violation of some norm that only they can define. The United States military, once the greatest force to fight evil, has kowtowed to the Wokesters. The military is abolishing, "Yes Sir, Yes Ma'am" as some asshole at the top of the military chain of command contracted the Woke Disease. Instead of concentrating on combat readiness, to break things and kill people, in our defense, they are channeling their efforts to using Woke pronouns. If our soldiers are captured by China, do you think their captors will use the right pronoun as the administer torture. What will our woke commanders do in that case? File a complaint to the International Tribunal? One cannot measure the contempt I have for the leaders of our military. They have succumbed to a disease that erodes the mind, without resistance!

Wokeness in our schools is rampant. The disease is so far entrenched in the education system the only way to stop its spread is to eradicate the Woke disease carriers by any means. The are subjecting innocent children to porn and sexual content that if done by any other person would result in jail time. Have you heard any Woke teacher speak out about child sex trafficking at the southern border? Woke teachers are all about the children. The problem is they no longer view the children or their parents with any respect. They are no longer concerned about consequences. Woke teachers are vial pedophiles preying on innocent children. You can spot a Woke teacher by the way they oppose parents getting involved in their children's education. It is the same reaction as a pedophile when they fear discovery. Shh! Don't tell your parents.

Sad, but our congress, president and some SCOTUS members suffer from Wokeism. We have a Supreme Court justice that defends persons with child porn as being safe as long as they don't act out. Yet we have laws that say otherwise. Members of congress supporting Drag Queen Day in grade school. Really. Professional Drag Queens are adult entertainers. They do not condone children in their audience. Yet teachers, and parents, subject their young children to adult men

Defining Woke

pushing their junk in faces of children. What if the accountant in your office did that to a co-worker? How long would his employment last?

Why is it Wokeism only concerns itself with promoting the acceptance of societal perversion? Did you ever see or hear an account of a Wokester being upset when a church is desecrated or bombed, even if it was a black community church. Church is the antithesis of Wokeism. Like Holy Water and a vampire. The Wokesters want religion stamped out in America. It is the last stand against moral bankruptcy; no fear of God.

As normal, red-blooded Americans we no longer have sane options to fight this disease. Our country is suffering from the Woke virus. A virus more deadly than the Wuhan flu. Healthy people survived the flu, even unhealthy people. Children were naturally resistant to the Wuhan flu. But Wokeism in our schools is grooming our children to be stupid and racist. Telling children that one skin color is evil or better will create hostility toward each other now and in the future. Telling children that they can pretend they are another sex and if they want mutilate themselves. There is the plague Woke afflicted people are casting on our children and our society. Let me be clear It is happening in other countries as well. Maybe not China, Iran or Saudi Arabia. For some reason those countries are immune to Wokeism, with an unwavering stand against homosexuality.

I mentioned we have no sane options left to eradicate this disease. The Woke disease has a hold on a tiny population, but the side effects are permutating across the country. We need to assemble a posse and hunt these radical nitwits down. Lock them up in an insane asylum until they are able to recite the Lord's prayer 1000 times. They must be isolated to their death or until prayer guides them to see the light.

Do not expect your congressional representatives to help solve this plight of our children. They are too busy ignoring other problems, such as crime, drugs and open borders. It seems we the public are left to our defenses against the destruction of our country and way of life. Life keeps us busy and often we are distracted by the realities of our own lives.

Pay Attention. Be Alert. Stay Awake – not Woke.
