

Dear Texas Dirt Truck Series Community,

In light of the recent incident at Texana, we have thoroughly discussed the matter of intentional contact post-checked flag or during caution periods. It is with utmost seriousness that we wish to inform you of the penalties we have established to address such behavior. Our commitment to maintaining a safe and fair racing environment has led us to implement these measures, ranging from suspensions to points deduction in the upcoming week.

We want to stress unequivocally that such actions will not be tolerated within our series. We have consistently emphasized that any issues arising during a race should be promptly brought to our attention. Our dedicated team is here to handle such matters in a just and appropriate manner, ensuring the continued integrity and safety of our events.

We acknowledge that there may be varying opinions on these measures, and we understand that changes can sometimes lead to dissatisfaction. However, it is vital to recognize that our primary concern is the well-being of our drivers and the overall success of the Texas Dirt Truck Series.

Driver safety remains our top priority, and we are committed to upholding this principle at all times. Should you have any comments, questions, or concerns, we encourage you to reach out to Buck, Bo, or myself. Your input is valuable as we work together to maintain the high standards of our series.

Thank you for your understanding, cooperation, and dedication to the Texas Dirt Truck Series.

Sincerely,

Mike Tracy
