Early Childhood Career Development Opportunities

Child Development Credential

The Child Development Associate™ (CDA) National Credential represents the crossroad where education and experience meet. This crossroad epitomizes competence and is a pathway to learning best teaching practices for many early educators:

- A lead teacher who already holds an academic degree, but needs to gain hands-on practical skill and competency in early care and education.
- An assistant teacher with experience, but little formal education.
- A family child care provider who must improve the quality of his/her setting to meet accreditation requirements.
- A high school student interested in pursuing a career in working with young children.

The CDA helps early educators meet current state and national professional requirements. CDA recipients are competent practitioners who value vital knowledge and skills and formal education. The CDA is portable, recognized in all 50 states, the District of Columbia, U.S. territories, community colleges, school districts and the military.

For more information about the CDA credential, contact Susan Fordham at 334-749-8400 ext. 222 or susan.fordham@ccrc-alabama.org
