Contracting: Time and Materials
Project Completed: 2015

Services:

- Site investigation
- Site Remediation
- Sample Analysis
- Qualified and Certified personnel
- Work Plan Preparation
- Regulatory Interface
- Reporting
- Permitting

Discussion:

CES Group is currently contracted by the State of California Department of Transportation, District 8 Division of Construction to conduct site investigations at multiple properties throughout several Counties within the District. CES Group has maintained this on-call contract with Caltrans for several years. CES Group has performed to date more than 145 on-call investigations, 27 Site investigations, and more than 30 remediation projects at properties within the right of way of future CalTrans projects. Facilities investigated under this contract include residential and commercial/industrial type properties.

CES assisted Caltrans resolving numerous issues including the preparation of on -call **Workplans, Health and Safety Plans** for site assessment and remediation procedures. CES Group also completed multiple on-call site investigations including soil and groundwater sampling, analysis, and regulatory reporting. In several cases CES Group was also called to conduct remedial operations including excavation, transportation, disposal of impacted soil in addition to in-situ technologies such as Soil Vapor Extraction, and enhanced bio-remediation.

CES Group performed:

- Work Plan Preparation (when needed)
- Necessary permitting and regulatory interface
- Asbestos remediation oversight and monitoring
- Sample collection and analysis
- Report preparation
- On-Call Remediation design and implementation
- Site Assessment
