### Discussion:

CES Group has been contracted with the County of Orange since 2013 performing Operations and Maintenance Services of Leachate Groundwater Extraction Systems and all various liquid conveyance systems at the Central Regions Landfills. The Central Region consists of five landfills with both active and closed Sites. CES Groups responsibilities include but are not limited to performing inspection, monitoring, maintenance, and repairs to the various components of the LCRS, GES, GWM, SWCS, and PNPWS landfill system and compliance with operating permits. CES Group prepare a routine inspection checklist for tasks to be performed for the operation and maintenance of the LCRS, GES, GMW, and PNPWS landfill systems. Other activities include environmental and groundwater monitoring

CES Group performed:

- Environmental Monitoring
- Groundwater Sampling
- Data evaluation
- Report preparation
- Routine inspections, maintenance, and repairs
- Workplan Preparation
- Non-Routine inspections, maintenance and repairs
- Post- Closure Monitoring & Maintenance
