# EXCITE

## TESTIMONIAL

*"What!?!? A Spinosaurus!?!?!  
That's amazing! Mom look, a  
Spinosaurus!!! They are way  
cooler than a T. rex. "*

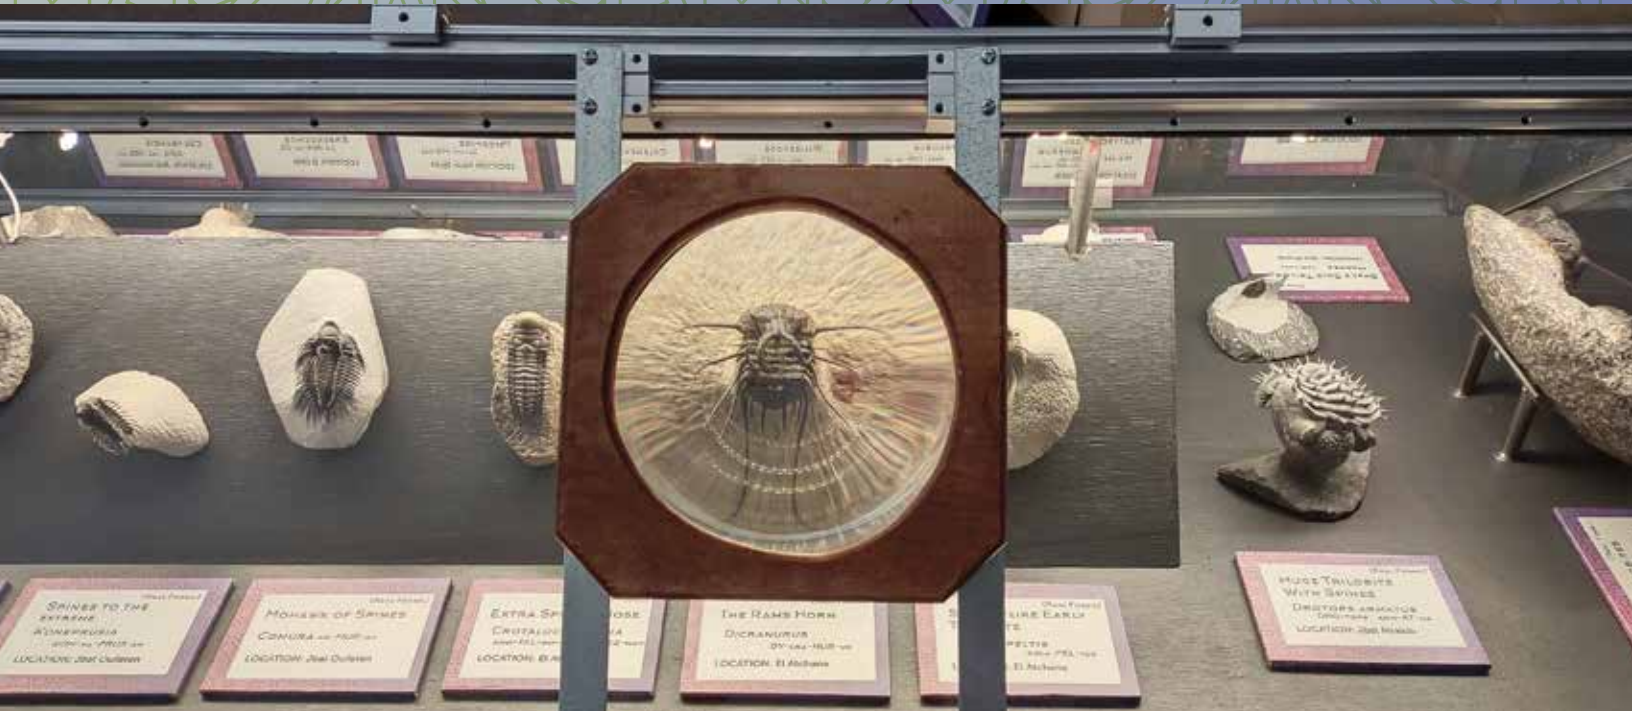

- Visitor (Age 6)

**TAKE A PHOTO IN A SHARK JAW  
THAT COULD SWALLOW A FAMILY OF SIX!**

# WHAT IS EVERYONE'S FAVORITE MONSTER? THE ANSWER MIGHT SURPRISE YOU!

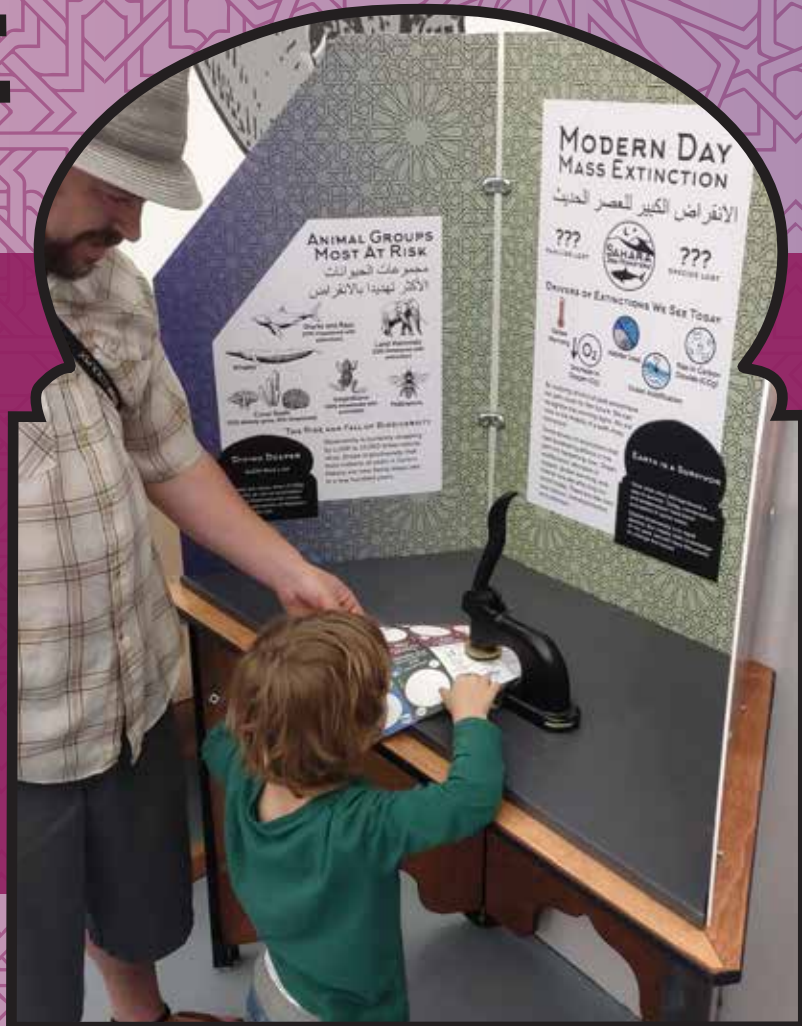

*"Adults love the integration of mass extinctions with fossils. Kids love the whales with legs, mosasaurs and... Spinosaurus! I love the trilobites and the elasmosaur! The videos and music bring the exhibition to life. Everyone leaves the museum saying they HAVE to tell their friends about it!"*

- Reese Barrick - Director, Sternberg Museum of Natural History

# ENGAGE

HANDS-ON LEARNING AT EVERY TURN. SAHARA SEA MONSTERS IS FUN FOR ALL AGES.

DIVE INTO DEEP TIME

## SUGGESTED FLOOR PLAN STERNBERG MUSEUM OF NATURAL HISTORY SUMMER 2022

## SUSTAINABILITY EDUCATE BY EXAMPLE

**Sahara Sea Monsters** discusses past mass extinctions and draws comparisons to our own time. We hope this is a teachable moment. Through the excitement of "Sea Monsters," visitors can learn about the delicate balance of nature and the consequences of upsetting that balance.

This exhibition can be up to 7000 SF and ships in only one truck. Display cases have adaptable and reusable panels. Shipping crates can be used for specimen display, decreasing storage significantly. Let's work together to simplify logistics and decrease our footprint.

## WHY BOOK WITH US?

With over two decades of exhibition experience, we have listened to comments and concerns from institutions around the world. We consider these conversations in all aspects of our company.

We are involved every step of the way, from content development and construction, to shipping and installation. This means that we are always thinking about how every part will fit together to make the most educational, economic, adaptable, sustainable, and successful exhibition possible.
