September Message From CEO

COVID-19 pandemic has presented us with unprecedented challenges and opportunities. In these days and times in which we live, parents are unsure and children are insecure and there is chaos in the streets. We can look at this situation as the glass half empty or half full. I choose to see this glass half full. The reason for this is two-fold:

(1) I believe that history has taught us we are resilient and we will get through this, and

(2) I firmly believe in what our company stands for and does: helping people have better lives and live their dream jobs/career with a secure future.

Prosperity Pathways has evolved from the days when there was only one person helping hundreds of people over a span of 6 years, to now a team of trained and experienced people poised to help thousands of people work at home and have permanent full-time, part-time, flextime and even ANY TIME jobs. We know and are happy to share with you the tips, tricks, and techniques that make it possible for you to get hired without being scammed.

We also have the latest and up-to-date access to job seeking and job applying technical know-how. For example, I bet you did not know about the embedded ways companies provide to disqualify yourself from being one of their job candidates. I also bet you are not aware of the hijacked websites you may unwittingly be clicking into and giving away your computer information to the wrong

party. Well... we know how to protect you while you are seeking, finding, and applying for your job position.

We are very blessed to be able to partner with McDonald's to help any one looking for employment.

These days and times in which we live may be causing insecurity and anxiety, but for our clients that are already set working online and at home, they never skipped a paycheck, took a pay cut, reduced work hours, or fretted over how they would pay their bills. Want to join them? You can. Just click here and we will help you work at home and earn the income it takes to pay your bills, be with your kids and save costs so that you may enjoy financial sustainability and security just as our clients do.
