Subject: New concern

I wanted you to be aware of this article and video, which outlines concerns regarding a TF we had several years ago. I am not sure what is causing the concern now, but it is. Note the video, makes a link between the TF and the investigations for complaints against lawyers in the 2020 n and 2022 election cases. I guess the premise is that the SC and the Bar is trying to suppress those who would disagree with us. Of course, that isn't true, but I am not sure if that matters anymore.
