

Baby Angela Lynn

September 27, 1968

Angela has a quick memory coupled with a quick mind and an intellectual capacity to achieve success in most of her endeavors especially the artistic and creative fields as well as the personal professions. She would do well in any of the personal, one-on-one contact careers like medicine, law, or social work. She has the ability to relate to people, understand and appreciate their feelings. She has confidence in her abilities and wants the public recognition she feels she deserves. Money is not the driving force behind her ambition; public approval of her and her services or creations is her primary goal.

Angela has a sympathy, warmth, and loyalty that makes her popular and well respected in the community. She is sociable, and enjoys being the center of attention at parties or groups of people, but also knows when to step down before she wears out her welcome. She has somewhat of a suspicious nature and becomes overly inquisitive in her conversation when she feels that there is some thing or some situation being hidden from her.

Her natural intellectual endowments more than overshadow her negative qualities, and if she learns to utilize her positive attributes and ability to get along well with people, she should be able to have a reasonably comfortable life. She is faithful and devoted to her spouse but prone to jealousy, so she needs to be aware of this tendency and not let it get the best of her.

She has an interesting personality. She is quiet and unassuming but has the ability to sense other people's feelings and what they are looking for in life. She has an appreciation for beauty and the arts, music is especially appealing to her. She is not overly social, she is not comfortable with crowded gatherings and the hubbub that goes with it. She prefers a quiet, relaxing atmosphere where she can be detached from the rigors of the world.

She has the innate ability to give a blend of the spiritual with the practical in whatever project she chooses to undertake. This quality shows in her work and gives her expression great acceptance by the public.
