### COMMENTS

Jay, thank you for joining our team. I think this season you faced challenges and good competition. Competition from both the opposition and from your teammates. You had to compete daily to get on the field, then when you got on the field you had to compete to stay on it. I think that this was a season for growth for you and that there is a ton of good ahead. Keep working hard and things will pay off. Thank you for your commitment to our team!
