top 20

Statistically Week 12 was one of our easier weeks of the year with the average correct being 8.86 out of 15 for all. With only the bowl games left, GG Cutter has stretched his lead to 2 games over Talmadge Tobias and Carolyn Klæge. David Rankin, CJ Troyer and Steve Williams are lurking in a tie for 4th and are only 3 games back. Lyle Wescott and Paul Krouse are tied for 7th and only 4 games back. With full bowl slate coming up, it is still anyone's contest to win with 13 prognosticators still within 6 games of the lead. The Top 20 after Week 13 are:
