

A BEAUTIFUL VISION

Your loved one is resting in a place of natural beauty.

Our Lady of the Rosary Cemetery & Prayer Garden was designed using the European model. Nick and Ellen Brumder heard the calling and conceived this dream in 2004, the year of the rosary. Pope John Paul II sent his blessings in a letter. This cemetery would be "natural" - reflecting the seasons of the year; each season showing its natural beauty: the dryness in Winter, the new beginnings of Spring; the brightness of Summer and the changing in the Fall. This is our life's cycle too.

Hence, we're asking each family, their relatives and friends to comply with the following. As a benefit, our grounds can be better maintained and opening and closing graves will do less damage to adjacent gravesites.

- NO Borders including plants/flowers
- NO Rocks
- NO Solar Lights
- NO Yard Art (spinning birds, garden globes, etc.)
- NO Shepherd Hooks of ANY size
- NO Windchimes

****A terra cotta ground pot** which holds water that slowly seeps into the ground is the **BEST way to maintain fresh-cut flowers.**
