Levels of Consciousness: Actors - March 2023

Brad Pitt continues his ascension journey at an incredible rate and is now resonating at 893, 50 points higher than in January 2023. Keanu Reeves has also increased significantly from 736 to 778. The others have changed only slightly apart from Ice Cube who has decreased from 672 to 642. This is a very common experience during the ascension as we struggle to hold new increased light levels and may find our levels abating until we later resume our ascension journey.

Please note that the readings that were not possible obtained the following results:

- Levels of consciousness zero - negative
- Level of consciousness more than zero - negative.

We would typically see this kind of reading when the soul has left the body. Again, there have been no reports of the deaths of either Clint Eastwood, Denzel Washington, Leonardo di Caprio, Michael Douglas, Robert Downey Junior, Samuel L Jackson or Tom Cruise, we do not understand this result.
