

Levels of Consciousness: Spiritual / Truth Providers - March 2023

The souls of channellers and truthers.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for various information providers from the spiritual community, updated March 2023.

Levels of Consciousness: Spiritual / Truth Providers - March 2023

For this March edition, there has been very little change from the last edition published in January 2023 and generally a few minor increases in some people's levels of

consciousness. The notable change this month is that Neale Donald Walsch is now resonating at 1000, which is wonderful!

Please see our note below for those with levels significantly 500. Also note how Deepak Chopra no longer resonates. Normally we would only see this kind of result for people who are no longer incarnated but since we have not read any reports of their deaths, we do not understand these results.

Ego/fear based teachings are those - often given in good faith without intention to cause fear - where the spiritual information providers are telling us to avoid certain situations (eg spike proteins) or try to warn us about potential issues (eg food shortages).

Soul/love based teachings are those where information is shared without judgement for judgement only comes from the ego.

Channellers:

Some of the information providers are giving us channelled information in which case both the channeller, the source and the average for messages (last 10) have been tested.

You may find that some of your favourite spiritual truth providers are not listed here. It may be that we are not aware of them (yet!) so please contact us if you would like us to include others on this list.

Please note that the spiritual truth providers you know may not be on the list as we have only included those whose level of consciousness tests at near 500 or above (the level of love). There are many spiritual truth providers who test in the 100s, 200s, etc whose information is influenced heavily by ego, who we have not included in this list.

Our testing has shown that all of the tarot card readers we tested resonated at well below 200. This may be because tarot cards themselves test as being disconnected from source energy and instead are connected with dark energy.
