

Levels of Consciousness: World Leaders - January 2023

The souls of world leaders.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for some of our more prominent or pioneering leaders, as at January 2023.

Please note that the readings that were not possible obtained the following results:

- *Levels of consciousness zero - negative*
- *Level of consciousness more than zero - negative.*

We would typically see this kind of reading when the soul has left the body. However, since there have been no reports of the deaths of any of the above, we don't understand these results. There are several potential explanations, but since this is not a political website, we do not wish to investigate this further.

Please see our Article Not Everything is As it Seems: People that lists other well known people whose levels of consciousness do not resonate, despite being seen in the public eye.

The notable changes this month are a significant rise for Viktor Orban of Hungary from 613 to 702, a rise in Cyril Ramaphosa from 641 to 687, a slightly smaller rise in Xi Jinping of China from 334 to 364 and a slight fall in Vladimir Putin from 784 to 765.
